

Business Continuity Plan Disclosure

Univest Securities, LLC (Univest) has developed a Business Continuity Plan explaining how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions are unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contact Us

If after a significant business disruption you cannot contact us as you usually do at Univest Securities, you should call our alternative number (917) 829-5153 for information related to our recovery efforts, or go to our website at <http://www.univest.us>. If you cannot access us through either of those means, you should contact our clearing firm, Velox Clearing, LLC (868) 808-3568 for instructions on how you may place orders, request cash, and securities transactions.

Our Business Continuity Plan

We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as soon as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses the following: data back-up and recovery; all mission-critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank, and counter-party impact; regulatory reporting; and assuring our customer's prompt access to their funds and securities if we are unable to continue our business.

Our clearing firm, Velox Clearing, LLC backs up our important brokerage records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by our clearing firm that its objective is to restore its own operations and be able to complete existing brokerage transactions and accept new transactions and payments within four hours. Your orders and requests for funds and securities could be delayed during this period.

If your account is held at a mutual fund or insurance company, the company will have backup records of your account information. Each company's estimate of its recovery time is different; you should contact the company directly if you require further information.

Varying Disruptions

Significant business disruptions can vary in their scopes, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within 1-2 hours. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area, and recover and resume business within 3-4 hours. In either situation, we plan to continue in business, transferring operations to our clearing firm if necessary. If the business disruption is so severe that it prevents us from remaining in business, we will assure our customers prompt access to their funds and securities.
